The Question Label is what the applicant will see. Use the text and HTML editor feature to make your questions look more professional.

You can either add your question to the existing general section or create a custom section for your question to be placed underneath. If you’d like to add a new section for a question to be within, please enter the name of the section in the “Create a new section” at the same time you’re adding the 1st new field being presented within this new section.

Once this section has been added with your new question, all subsequent questions you may want to add to this new section can be done by simply selecting the new section from the “Select an existing section” drop down list.

You can place any new question exactly where you want it by selecting the desired location in the “Where to Add this Question” drop down list.
